## ASTROLOGICAL EDUCATION

### *Studying Astrology*

Astrology is an ancient art dating as far back as Babylonian times. Common perception considers astrology to be magical, religious, secret, supernatural or mystical. However, it is a combination of philosophy and science, with definite rules and specific techniques. Astrology is also an art where awareness, common sense and personal skills play an important role.

The study of astrology on a serious level requires time and commitment. It requires self-discipline and application. In other words, the study of astrology is an experience in hard work and objectivity rather than psychic ability. Astrology's primary tenet is that the individual is an integral part of the ebb and flow of the universe. Understanding this ebb and flow as it is reflected in the cycles and patterns of the heavens gives an insight into a person's life and the uniqueness of the individual. At the same time, it provides a canvas upon which the story of humanity is etched.

The fraternity of astrologers spans many centuries and continues to reach down through the ages. Every generation of astrologers has left their legacy on a body of knowledge which continues to grow as humanity evolves. As a student of astrology, you will be joining the ranks of many famous people who studied this ancient discipline, such as Aristotle, Thomas Aquinas, Nicolas Copernicus, Johannes Kepler, Michelle Gauquelin and Carl Jung, to name a few.

### *Frequently Asked Questions*

#### **I KNOW NOTHING ABOUT ASTROLOGY. DOES IT MATTER?**

No. Astrology 101 starts at the beginning and gradually builds a foundation of astrological knowledge. The only prerequisite is that the student is twenty one years or older.

#### **WHAT CAN I EXPECT TO LEARN DURING THE COURSE?**

The Essential Astrology course is designed to provide the student with the techniques and skills to calculate a natal chart, do simple delineation and predictive work. The level of individual effort will also affect the learning experience.

## Previous Learning

### ESSENTIAL ASTROLOGY COURSE

If a student has studied astrology previously and wishes to continue studies at a level other than the beginning of the Essential Astrology Course, then we ask that the student undertake an internal Unit assessment. This is the assessment given to enrolled students at the end of each Unit. The student will be asked to complete the Unit Assessment previous to the Unit they wish to enrol in.

For example, if a student wishes to enrol in Astrology 201 we would ask that they complete the Unit Assessment for Astrology 102. A small fee of \$25.00 is charged and the assessment completed and marked before enrolment can take effect. The Assessment provides the student with feedback on their level of competency to undertake the Unit in question. Should the student be unsuccessful, we would suggest alternatives such as enrolling in a previous Unit, personal tutoring or undertaking the course from the beginning. If the student successfully completes the required Assessment, the assessment fee is deducted upon enrolment.

The Essential Astrology Course consists of:

- ❖ Astrology 101 – *the first six months of the first year. Commences in February each year.*
- ❖ Astrology 102 – *the second six months of the first year. Commences in July each year.*
- ❖ Astrology 201 – *the first six months of the second year. Commences in February each year.*
- ❖ Astrology 202 – *the second six months of the second year. Commences in July each year.*

Unit content for the Essential Astrology Course is outlined in this Guide.

## ASTROLOGICAL QUALIFICATIONS

As with any profession, the question of qualifications and their quality is always an important point for consideration. Qualifications ensure that the consultant astrologer is trained in a variety of techniques. This differentiates them from the interested amateur who has basic information gleaned from books and intermittent attendance at short courses or workshops.

The principals of Astro Mundi have developed a syllabus for both the Essential and Advanced Astrology levels.

The first step in gaining an astrological qualification involves successfully undertaking the Astro Mundi Essential Astrology exam. This is usually conducted in January of each calendar year.

The Advanced Astrology paper completes the process of gaining an astrological qualification. This is a major and substantial piece of writing and candidates are given up to three months to complete the paper.
